

## ANT-900/1800

## **GSM ANTENNA**

The ANT–900/1800 dual–band antenna is designed to work in conjunction with the GSM–4, GSM LT–1, GSM LT–2, GPRS–T1, GPRS–T2, GPRS–T4, GPRS–T6 modules as well as the INTEGRA 128–WRL control panel. The antenna comes with a standard SMA connector, so it can be also used in other devices provided with such a connector. The cable with a length of 2,5 meters and a magnetic base are used for easy mounting, even at some distance from the interacting device. This allows positioning of the antenna in a location with optimal GSM signal strength.

The antenna works in the following frequency bands: 900/1800 MHz.

 900/1800MHz antenna for GSM-4, GSM LT-1, GSM LT-2, GPRS-T1, GPRS-T2, GPRS-T4, GPRS-T6, INTEGRA 128-WRL modules

## **TECHNICAL DATA**

Operating frequency	900/1800 MHz
Cable length	2.5 mm
Impedance	50 Ohm
Cable	kabel koncentryczny RG174 (czarny)
VSWR	< 2.0
Operating temperature range	-20+60°C
Connector	SMA
