

INT-CR

PROXIMITY CARD ARM/DISARM DEVICE

The module is used for partition control with proximity cards. This way, operation of the alarm system does not require a password: a perfect solution for a system used by children or the elderly.

- partitions arming and disarming with proximity cards or tags
- support for 125 kHz passive transponders
- 3 programmable partition arm modes
- 3 LEDs for system state indication and user interface display
- built-in buzzer
- compatible with **INTEGRA** and **VERSA** panels (connected directly to the bus)

TECHNICAL DATA

Environmental class	II
Supply voltage	12 V DC
Average current consumption (standby mode) (±10%)	65 mA
Enclosure dimensions	127 x 35 x 21 mm
Operating temperature range	-10...+55 °C
Weight	140 g
