

SPL-5010 R

OUTDOOR SIREN WITH OPTICAL AND ACOUSTICAL SIGNALING

An effective and rigid siren is one of key components of intruder security system. SATEL's product range includes a wide selection of different sirens, to suit almost any type of installation.

All these sirens provide several common features: high quality of components used, and advanced technology - just to make them reliable.

FEATURES

- acoustical signaling: piezo transducer
- optical signaling: ultra bright LEDs
- tamper protection:
 - against foaming (optional)
 - against removing from mounting surface
 - against opening
- optional inner metal shield
- available also in blue (**SPL-5010 BL**) and orange (**SPL-5010 O**)

TECHNICAL SPECIFICATION

Nominal power supply	12 V DC ±15%
Mean current consumption when signaling acoustic signaling	250 mA
Mean current consumption when signaling optical signaling	35 mA
Working temperature range	-35°C...+60°C
Sound pressure	approx. 120 dB
Enclosure dimensions	298 x 197 x 72 mm
Weight	670 g
