Features

- Analogue passive infrared detector
- Pet Immunity - Small animals up to 12kg
- White Light Immunity of 6500 lux
- Electrostatic Immunity of 8 kV
- As an option the detector can come with bracket for wall or ceiling mounting

Technical Specifications

Coverage range	From 1.5 to 15m
Coverage area	90°
Detection zones	54
Mounting Height	1,5-3,6m
Power supply	9 VDC to 18VDC
RF Immunity	10v/m@89MHz-2,7GHz
Current consumption	<12mA
Walk detection speed	0,2m/s – 3,5m/s
Operating temperature	From -20 up to 50°C
Dimensions	62x97x50mm
